Adult Single Organ United States Network Guide

About This Reference Guide

This document provides a comparative snapshot of adult single-organ transplant coverage across the major national transplant networks, including Optum TRS, Cigna LifeSOURCE, Aetna IOE, Blue Distinction Centers for Transplants, Emerging Therapy Solutions (ETS), Interlink COE, and Humana NTN. By mapping in-network status across kidney, liver, heart, lung, and pancreas transplant programs nationwide, this guide helps benefits professionals, self-funded employers, and consultants quickly assess the breadth of access offered by each network.

Use this tool to identify access gaps, compare network footprints, and inform strategic decisions around network selection, steerage, or fiduciary oversight. Please note that network participation may change; all data is compiled from publicly available sources and should be independently verified before use.

To access full network maps, historical pricing benchmarks, SRIK-integrated quality analytics, and more, contact us at info@healthrate.io or visit www.healthrate.io.

- Program is in network
- Program is in network with designation

O = Optum Transplant Network (TRS), C = Cigna LifeSOURCE, E = Emerging Therapy Solutions (ETS), I = Interlink COE Transplant Network, H = Humana National Transplant Network (NTN), A = Aetna Institutes of Excellence (IOE), B = Blue Distinction Centers for Transplants (BDCT)
